

# Record 10" Premium Bandsaw BS250

## Woodworking Machinery & Accessories

### Features

The Table tilts up to 45° on a solid trunnion which features an easy to read scale

Instantly release or re-engage tension using the lever on the rear of the BS9. This makes changing blades much quicker and easier, with the additional benefit of allowing the previous blade tension to be instantly re-applied

Rack and Pinion Blade Guide Adjustment. This design allows accurate positioning of the blade guides with excellent support

The blade tension system is designed to easily cope with all compatible blades.

The cam action release mechanism locks the fence in position quickly and features tension adjustment to achieve the perfect clamping strength.

Optional Stand & Wheel kit Available The optional stand and wheel kit allow the BS250 to be moved easily around the workshop.
